ALC20 | TECHNICAL DATA SHEET

Bending machine

Code **282ALC20**

Description

This machine bends concrete reinforcing bars on site or in the workshop. It can be programmed to easily reproduce fully customizable bending sequences. It can bend reinforcing bars up to 18 mm in diameter.

Dimensions (L/W/H) (mm)	45 / 60 / 32 cm (without stand)
Weight (kg)	95 kg
Connection voltage	220 V
Motor power	1,5 kW
Frequency	50 Hz
Max. diameter of rebar	18 mm
EAN code	3660601090427

Benefits

- > Can be used in the workshop or directly on site
- > Powerful and easy to use
- > Fully programmable for precise, automated operation
